Kaprys House

Designed as a weekend retreat to be used in summer as well as in winter. It is set on top of a sand-dune and in a woody environment in Cariló, a seaside town situated 400 km from Buenos Aires. The home, which was thought of as a 'flying' look-out in the forest, is supported by two columns.

The house is separated from the plot through a 'flying' look-out in the forest, is supported by two columns. The house is supported by two columns. The house is supported by two columns. The house is supported by two columns.

The home, which was thought of as a 'flying' look-out in the forest, is supported by two columns.
